SUMMARY

Third-year B. Tech Computer Science student with hands-on experience in frontend and full-stack web development. Skilled in building responsive web applications using React, JavaScript, and REST APIs. Seeking a Web / Software Development Internship to contribute to realworld projects and strengthen production-level development skills.

TECHNICAL SKILLS

- Languages: JavaScript, Python, C++, C
- Frontend: ReactJS, HTML, CSS, Bootstrap
- Backend: Node.js, Express.js
- Databases: MongoDB, MySQL
- Tools: Git, GitHub, VS Code, Postman
- Concepts: Object-Oriented Programming, Data Structures & Algorithms, Responsive Web Design.
- Soft skills: Problem Solving, Team Collaboration, Fast Learner, Communication Skills, Analytical Thinking.

EDUCATION

Bachelor of Technology (B. Tech) – Computer Science and Engineering

SRM University, Andhra Pradesh | 2023 – 2027 | CGPA: 8.58

Intermediate (MPC)

Sri Bhavishya Junior College, Vijayawada | 2021 – 2023 | Percentage: 93.4%

CBSE – Class X

Nalanda Vidya Nikethan, Vijayawada | 2020 – 2021 | Percentage: 93%

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern

Edunet Foundation | June 2024 – August 2024

- Built and deployed the Mental Health Resource App, a full-stack web application under professional mentorship.
- Developed RESTful APIs using Node.js and Express and managed database operations with MongoDB.
- Implemented responsive user interfaces and integrated frontend components with backend services.
- Designed features for mood tracking, journaling, and mental health resource access.
- Used Git and GitHub for version control and collaborative development.

PROJECTS

AgroLink – Frontend Web Application

- Developed a responsive frontend for an agriculture-focused platform connecting farmers with services and information.
- Built reusable UI components using React, HTML, CSS, and Bootstrap.
- Implemented CRUD operations using JSON Server as a mock backend for dynamic data handling.
- Collaborated with team members using Git and GitHub in a team-based development environment.
- Contributed to frontend CRUD functionality and UI integration using React and JSON Server.

GitHub: https://github.com/Prem4517/Agrolink_Project.git

Online Movie Ticket Booking System | MERN Stack

- Developed a full-stack movie ticket booking web application using MongoDB, Express.js, React.js, and Node.js.
- Implemented user authentication and authorization using JWT.
- Designed features for movie listing, seat selection, ticket booking, and booking history.
- Built RESTful APIs for booking management and user operations.
- Created responsive frontend interfaces using React.js.

Personal Portfolio Website

- Created a responsive personal portfolio website to showcase projects, technical skills, and resume.
- Built using HTML, CSS, and JavaScript and hosted on GitHub Pages.

CERTIFICATIONS

- Python for beginners – Simplilearn
- MongoDB associate developer -MongoDB
- Java SE 17 developer – Oracle
